Mr. Materne stated that the cart path was considered wetlands. There is a backhoe and torn up cart path. There is also work done in the buffer zone. A cease and desist order has been put in place. I asked the owner to put up siltation control, which he has done.

Mr. Roach showed picture of the property and damage that had been done.

Mr. Evans asked where the wetland were.

Mr. Materne replied where the tracks marks are.

Ms. Huber stated he went over the driveway.

Mr. Materne stated he doubled the width of the driveway. An Enforcement Order needs to be issued until he files with the commission.

Mr. Evans asked what does he want to do?

Mr. Roach replied to turn the back part of the property into a lawn and spread loam. I told him he needs to contact his engineer.

Mr. Evans asked if the place he wants to access a buildable lot?

Mr. Roach replied yes, it is.

Mr. Materne stated that Mr. Davis said he was going to file for a limited project. He needs to file.

Mr. Evans asked if we issue an Enforcement Order can he build or perc?

Mr. Materne stated that an Enforcement Order all work has to stop.

Mr. Roach explained where damage has been done.

Mr. Kershaw asked is that going to be contiguous?

Mr. Evans asked if they have 200' of frontage?

Mr. Materne stated that the parcel had been divided.

Mr. Evans asked what do you propose?

Mr. Materne stated to have him file, seed and stabilize the disturbed area.

Mr. Evans stated he needs to stop until he come into a meeting.

Mr. Roach stated he is going to file an RDA.

Mr. Materne stated that all work within 100' of the BVW needs to stop. The rest of the areas are better left alone for now.

Ms. Huber stated that we walked the property, he knew he had wetlands and well aware of the violation. I think Enforcement Order. Don't touch it.
