**CAUTION:** This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good morning Laura.

Thank you for compiling such detailed information regarding this proposed polling location.

The documentation you provided reviewed a number of issues (site access, parking, entrance, and building interior) at the Francis Farm Community Center – Museum Building proposed as a consolidated polling place. **After a thorough review of these documents, it appears the location is fully compliant with the regulations governing accessibility of polling places.**

Thank you for all of your hard work ensuring the proposed polling place in Rehoboth is accessible for all voters.

Happy Holidays and please stay well!  
-Bridget
